### Some notes

- 1) Massachusetts is still currently classified as “Uncontrolled Spread” (covidexitstrategy.org) and is still in the Burgundy zone.
- 2) The 14-day trend of COVID positivity is **71%** (increasing).
- 3) Greenfield is now classified as “Gray”. However, the Massachusetts Department of Public Health (DPH) has reclassified their metrics of color descriptors for cities and towns within the Commonwealth. Please see the chart below for explanation.
- 4) The age groups that are still most affected by COVID are: 20-29 and 0-19.
- 5) Stay Diligent and be Safe: Wear your mask in all public settings **and** wear your mask even if you are 6 feet away from someone else. Lastly, wash your hands.

Plan holiday events now. Consider staying home with people in your close circle “pod” and not travel. If traveling, stay in a hotel to decrease the amount of time around others. If hosting a gathering at your home, try to prepare for an outdoor event. If indoors, keep your windows open for ventilation, wear your mask, wash hands frequently and stay 6’ away.
